

My family and I listen to K-LOVE radio every day. I don't have to worry about it's content with my children. I know it is safe for them to listen to. My children listen to it in their room every night while going to sleep. There is no other station in our area that is "family friendly". It would be a great loss to us to lose this K-LOVE station (89.9 FM). K-LOVE is a positive, family station with Christian values that is totally listener supported. Please do not replace it with some LPFM station. Thank you -
